

Multiplication & Division Strategy Games (v1) — Preview

Grades 3-6 · 8 sessions · low-prep math center games

What's included in the full pack

- 8 printable games with rules + teacher prompts
- Strategy posters and reflection prompts
- Cutout cards (division cases + targets)
- Ink-saving version + teacher notes

This preview includes a sample game board.

Sample Game: Array Bingo

(From Game 1 in the full pack)

How to play (short)

1. Fill boxes with products (12 to 81).
2. Roll two dice and multiply.
3. If you have the product, mark it. First to 5 in a row wins.
